

PROTOPERIDINIUM AMERICANUM

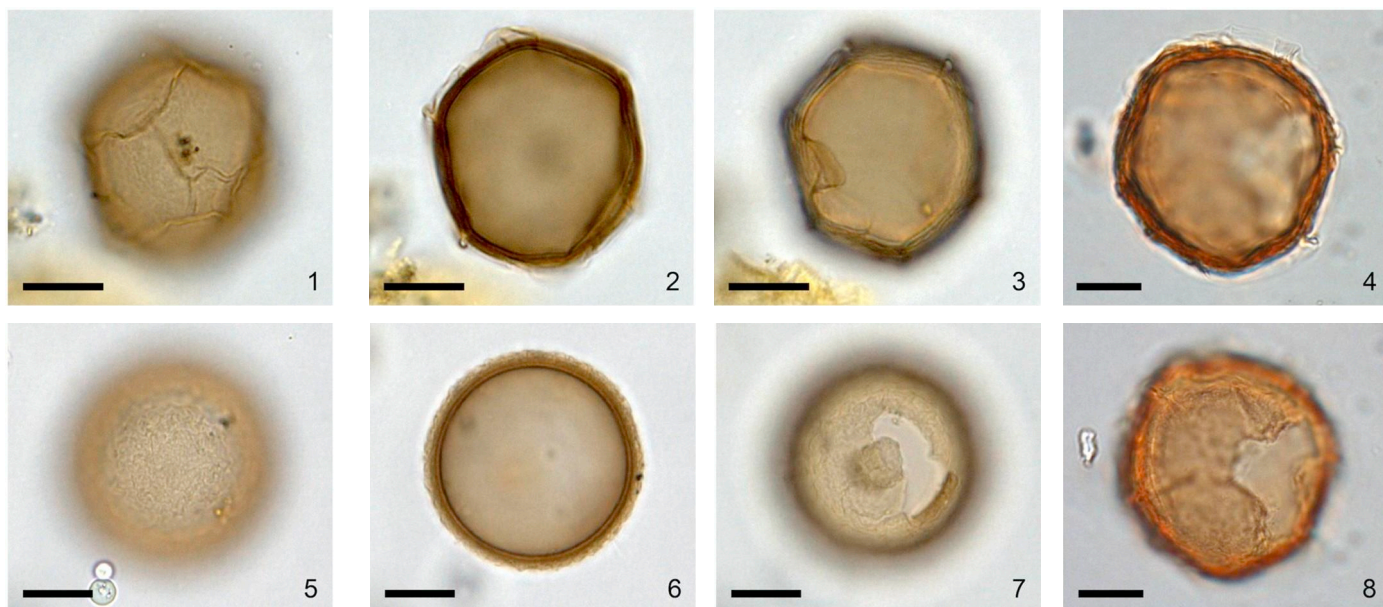

Plate 23. 1–8. Cyst of *Protoperidinium americanum*. 1–3. High to low focus of specimen from the Iceland Plateau (core DANA12-11/2-GC01). 4, 8. Optical section and low focal view showing the archeopyle of specimen from the eastern Pacific Ocean. 5–7. High to low focus of specimen from the Iceland Plateau (core DANA12-11/2-GC01) that has lost its outer membrane, exposing the granular outer surface of the cyst wall. All scale bars = 10 µm. (Van Nieuwenhove et al., 2020).
