

SPINIFERITES PACHYDERMUS

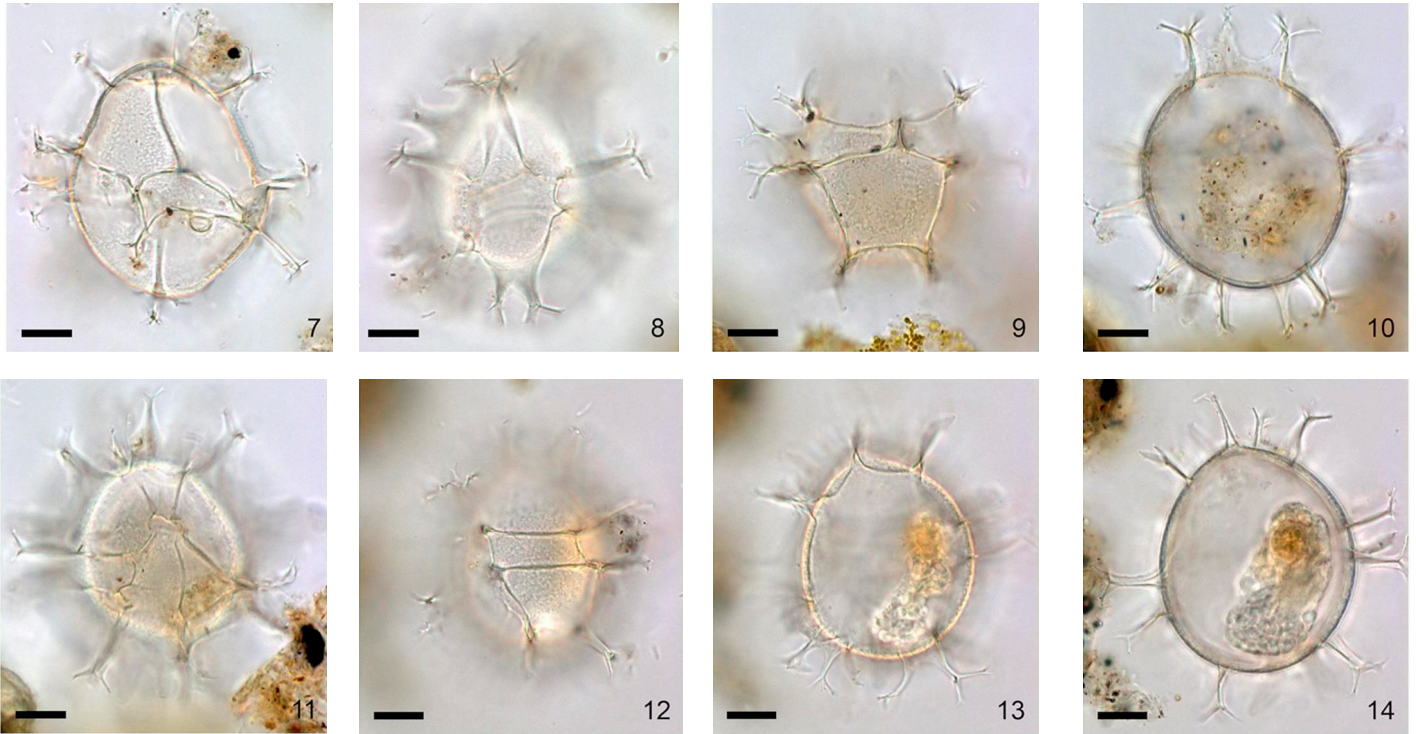

Plate 16. 7–14. *Spiniferites pachydermus*. 7–8. High and low focus, left-lateral view, of specimen from surface sediments in Izmir Bay, eastern Mediterranean Sea. 9–11. High to low focus, dorsal view, of a different specimen from the same locality. 12–14. High focus and optical section at two slightly different focal depths, lateral view, of a specimen with cell content from the same locality. Images 1–3 by NVN, 4–14 by KNM. All scale bars = 10 μ m. (Van Nieuwenhove et al., 2020).
